## **Direct Deposit of Refunds**

- Study Abroad students should set up a direct deposit link to his or her checking account prior to departure. This is helpful in cases in which a student regularly receives a refund of financial aid or receives other refunds, such as those resulting from overpayment.
- Once direct deposit is set up, all refunds will be directed to the student's checking account. With this option, students will receive refunds 24-48 hours after the refund is generated. For students who don't participate in direct deposit, the Treasurer's office will mail a check to their home address. If you are studying abroad and do not set up direct deposit you run the risk of delayed access to any refunds/aid disbursed.

### **To set up direct deposit, follow these steps:**

- Log into LESESNE GATEWAY
- Select Student Tab then Direct Deposit Information, and
- Complete the information on the web page using the information found on the lower left portion of your printed check or deposit slip.
  - Do not use the numbers imprinted on your debit card.

**Remember: LESESNE GATEWAY is your place to go for all Citadel billing, payment, and account information.**

**FERPA Reminder:** If you would like us to be able to share any information regarding your student record, you must complete a FERPA form and submit it to the Office of the Registrar. Your FERPA form must clearly state the first and last names of the individuals with whom you wish to share your student information. Example: If your parent/guardian is paying your bill and has a question, but are not listed on your FERPA form we cannot share any information with them.
